COMING SOON TO CEEGA 2024

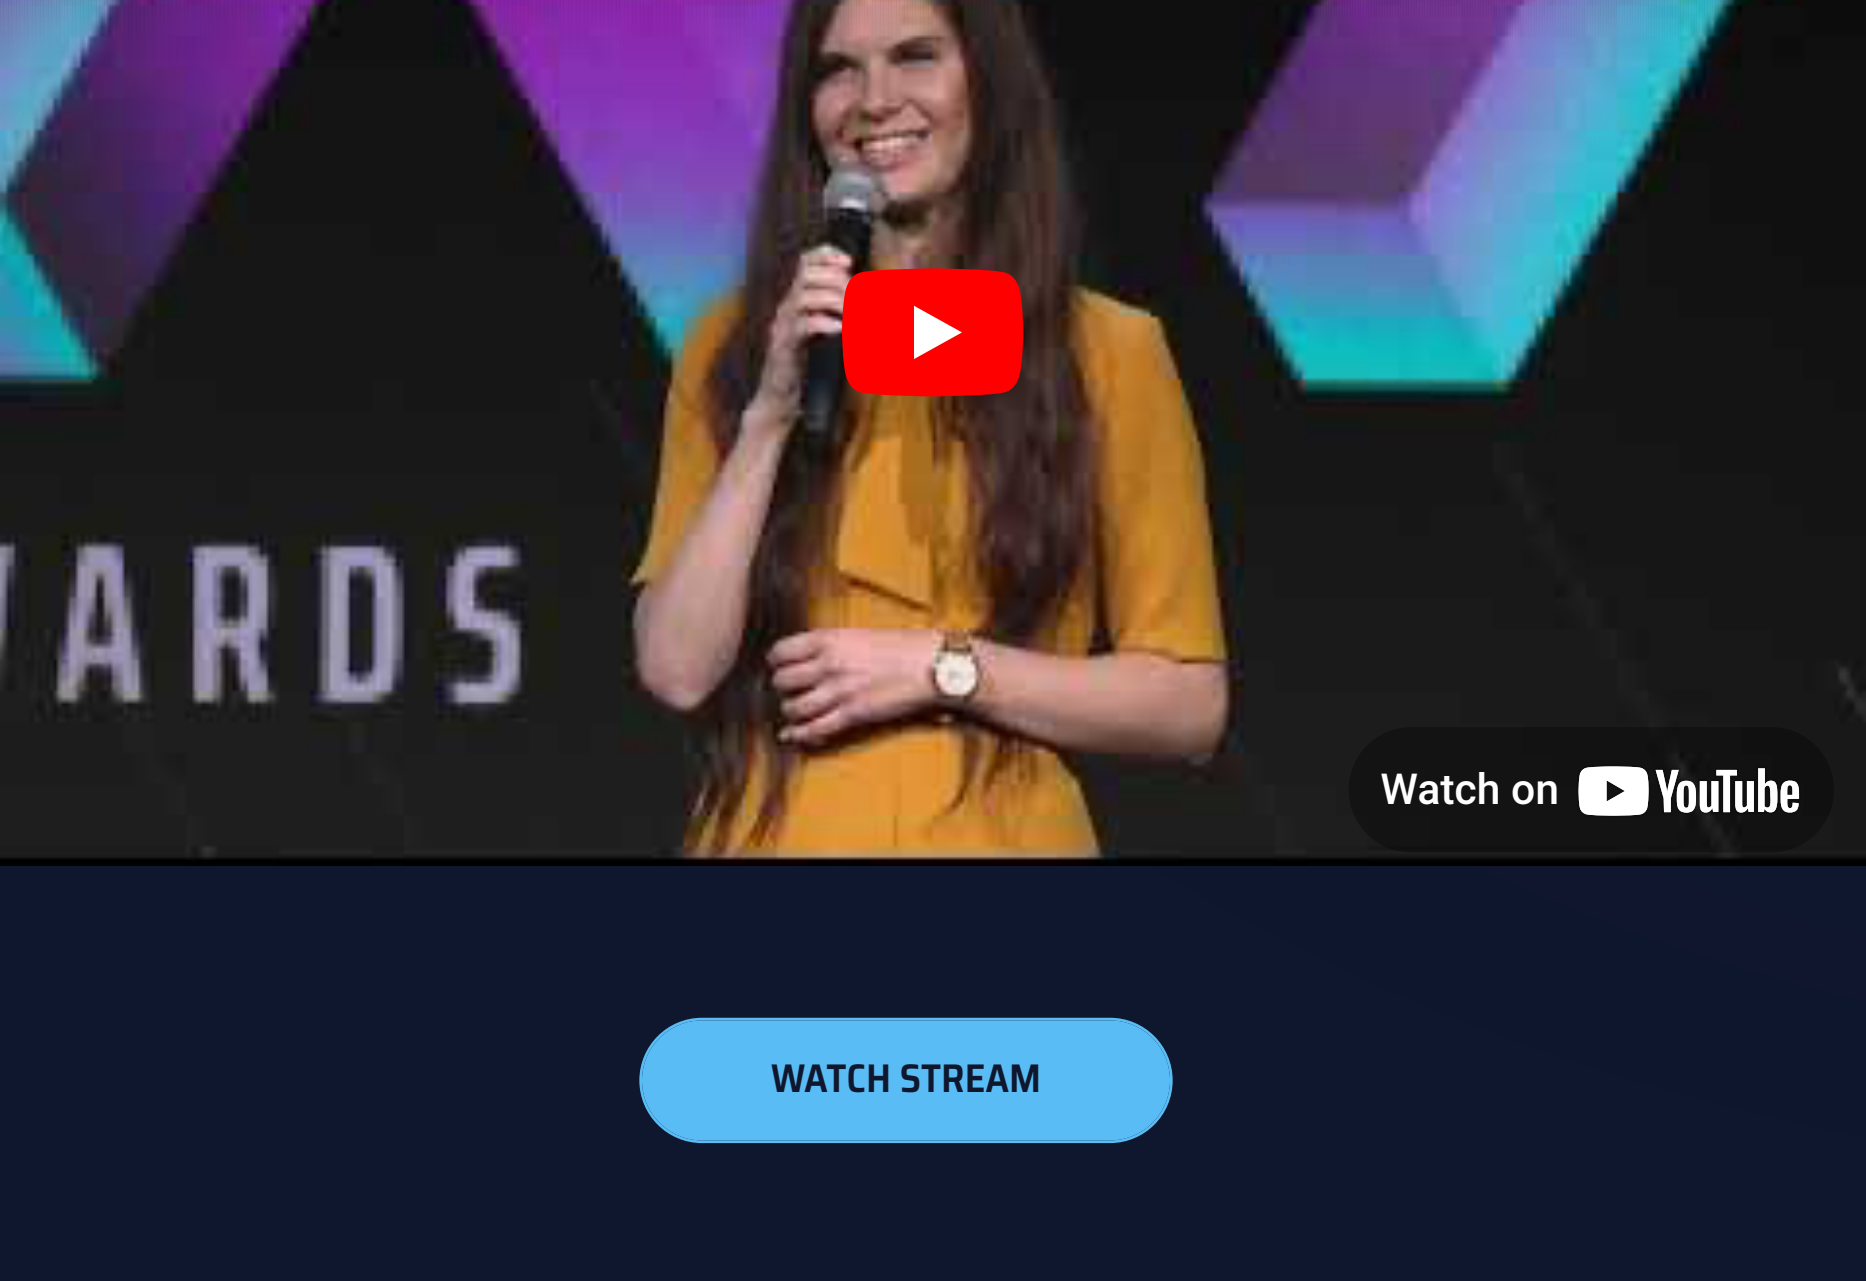

Established in 2018, the Central & Eastern European Game Awards were created as a collaborative project between game industry organizations from the Central and Eastern European region to honor the best games produced and released by local studios in the current year.

The final gala of the Central & Eastern European Game Awards, during which the winners are awarded CEEGA statuettes, is organized by the Polish Creative Industries Development Center (CRPK) and is held periodically (annually in autumn) in the Earth Hall of the Poznań International Fair, on the occasion of one of the most popular trade fairs in our part of Europe, the Poznań Game Arena (PGA) and the accompanying Game Industry Conference (GIC), and enjoys growing popularity among computer games fans.

For the latest sixth edition, in 2023, 84 games from 15 countries were submitted to the competition. The CEEGA took place in Poznań on 7 October during the Poznań Game Arena & Game Industry Conference. The judges selected four titles competing for the award in each category and then set the final winners by voting. The 2023 edition brought together thousands of people.

INTERNATIONAL COMMUNITY IN CENTRAL AND EASTERN EUROPE

WE WANT TO HIGHLIGHT THE BEST GAMES OF THE CURRENT YEAR.

The Polish Creative Industries Development Center (CRPK), organizer of the CEEGA, makes sure that the event is a celebration of the game development industry of the highest quality.

Organizations appoint the Jury, holding two members from each country, a journalist and an industry professional. The Jury will create nominations in 8 categories and finally choose awardees. But we are planning to develop the category, so stay tuned.

- 1

CEEGA was created as a joint project of the game industry organizations from the region. The 16 organizations from Central and Eastern Europe nominate two people from each country for the jury. These are usually specialist journalists or game industry professionals.
- 2

The judges cast their vote for the winners in categories such as: Visual Art, Audio, Design, Narrative, Hidden Gem, Technology, Best Mobile Game and most importantly, Best Game.
- 3

By voting, a jury selects the finalists who will receive the CEEGA statuette. The culmination of the project each year is the final gala in Poznań, where the jury announces the award winners.
